Description: **Botella PET 250 ml petaca**

Process: Blow-Injection

Material: PET

Color: Clear

Weight (g.): 28.5

Dimensions (mm.):

Drawing: 1900699 rev.: 0

Height: 134.5

Body shape: rectangular

Neck type: Pilferproof 28 STD

Inside Ø: 21.65

Minimum top load (N.): 450

Capacity (ml.):

Fill point: 250

Overflow: 256

Label area (mm.):

Width x Height: see drawing

Perimeter: see drawing

Packing characteristics

Pallet type: 1200 x 800 x 130 mm.

Tray code: 600x800x110

Trays/pallet: 16 (2 by 8 heights)

Tray dim.: 600x800x110 mm.

Corner protector/pallet: 4

Qty./Tray: 150 (10 by 15)

Dimension pallet: 1200 x 800 x 1255 mm.

Qty./pallet: **2.400**

Plastic bag/Tray: -

Gross weight pallet (kg.): 83

Gross weight tray (kg.): 4.56

Storage conditions

Store inside, in a dry place at room temperature (avoiding strong changes of temperature), protected from direct sunlight in a clean place with proper hygiene conditions.

The final product pallet can be stacked at one height.

Transport Conditions

Transport in the conditions in which the product is provided by the carrier and protected from humidity and smells in a way that minimizes the risk of contamination and sabotage. Maintain the hygiene conditions of the transportation and the transporter. Place the product correctly, ensuring correct clamping in the trailer and by so doing avoid possible damages.

Intended Use

The product is fit for all foods described in the product's Certificate of Conformity.

The useful lifespan of the product is 4 years from the manufacturing as long as the storage conditions are respected.

Applicable Legislation

This product complies with the current Spanish and European legislation regarding products and materials in contact with food.

All products and shipments are identified with the necessary information for its correct traceability.
